

June 2020

Dear new student at Multimedia Design,

First of all, welcome! We look forward to meeting you and hope you will have two good years with us at the programme.

In the following, you will find some practical information regarding study start and the programme.

Number of students and classes

65 students will start in your year, 2020, and will be divided into two classes: one Danish and one international, named mmda0920 and mmdi0920 respectively. As soon as all admitted students have accepted the study place, we will let you know who your new classmates are!

Tutors and Facebook groups for the classes

We have two tutors for each new class. The tutors are students from third semester of Multimedia Design, and they will welcome you when you arrive for study start and initiate different activities with you and your class during beginning of the programme.

The tutors will create closed Facebook groups for each class. We will provide you with the name of the group in August, which will allow you to meet your fellow new students online before the start of term.

Start of term

Your term starts on Tuesday, the 2nd of September. Information about the start of term on Campus Søfiendalsvej can be found elsewhere on the website.

Important materials

We have made an information kit for you to be well-prepared for studying with us. In “Semester plan mmd0920 Sem1 EN” you can read about content and progression of the first semester, including a short introduction to the subjects taught. The semester plan also emphasises what we expect of you as a student at the programme.

In “Book list, hardware and software mmd0919 Sem1 EN” you will find an overview of books which we expect you to purchase, our recommendations for hardware (laptop) and information about some of the software you will use during your education.

Please be aware that you, as a student of UCN Technology, will have access to several software licenses, including Microsoft Office 365, while you must purchase a license for Adobe Creative Cloud yourself.

If, after reading the different documents and checking our webpage, you have any questions, you are most welcome to contact the first semester coordinator, Costin Găman (cadg@ucn.dk).

Best regards,

Costin Găman (Semester Coordinator) and
Lisbeth Mathiesen (Programme Coordinator)
